

# PUZZLING PRIVACY

## Across

- we \_\_\_\_ the amount of data we collect and store
- privacy is all about this
- we let people access their data to ensure it's \_\_\_\_
- what you should have to access personal data
- what you should do when personal data is at risk
- personal data needs to stay \_\_\_\_
- the type of data that's about a person
- what we send to people if we experience a data breach

## Down

- what we do to data when it isn't needed anymore
- we need to be \_\_\_\_ about how we collect and use personal data
- a principle that keeps people informed and gives them decisions about their data
- what happens when personal data is compromised
- privacy in the EU
- our word for keeping personal data confidential
- the permission to collect or use personal data
